Edit search bar on view odoo

- Activate odoo developer
- Go to the bug on the view
- Edit view on control panel
- Add:

```
<search string="Search Opportunities">
    <field name="name" string="Opportunity" filter_domain="[
'|', '|', '|', '|',
('partner_id', 'ilike', self),
('partner_name', 'ilike', self),
('email_from',
'ilike', self),
('name', 'ilike', self),
('contact_name', 'ilike', self)]"/>
    <field name="partner_id" operator="child_of"
string="Customer" filter_domain="[
'|', '|', '|',
('partner_id', 'ilike', self),
('partner_name',
'ilike', self),
('email_from', 'ilike', self),
('contact_name', 'ilike', self)]"/>
    <field name="tag_ids" string="Tag"
filter_domain="[('tag_ids', 'ilike', self)]"/>
    <field name="user_id"/>
    <field name="team_id"/>
    <field name="stage_id" domain="[]"/>
    <field name="country_id"/>
    <field name="city"/>
    <field name="phone_mobile_search"/>
    <field name="activity_state"/>
    <field name="sequence_name"/>
```
