# Bill of Materials BoM

## Install module

```
git clone --branch 12.0 https://github.com/OCA/manufacture.git
mv manufacture/product_quick_bom /usr/lib/python3/dist-packages/odoo/addons/
```

Go to → Apps → Product Quick Bom

## Create the products

For example a delicious “casado”:

- One stockeable → Chicken piece
- One consumible → The casado
  - Bill of Material → Add the Chicken piece
  - On type select kit
