Error to send email with odoo

- The sin:

```
odoo.addons.base.models.ir_mail_server.MailDeliveryException: ('Fallo de entrega de correo', 'La entrega de correo falló vía el servidor SMTP \None\'.\nSMTPRecipientsRefused: {\ 'sadrecipient@gmail.com\': (550, b\ 'Verification failed for <bounce+50-sale.order-3@shit.com>\n\nNo Such User Here"\n\nSender verify failed\')}')
Binary file (standard input) matches
```

- Configure Template: Ajustes → Técnico → Correo electrónico: Plantillas → Sales Order: Send by email → Configuración del correo electrónico → De:

```
"${object.company_id.name|safe}" <${(object.company_id.email)|safe}>
```

- Configure catchall and bounce: Ajustes → Técnico → Parámetros del sistema:

```
mail.bounce.alias    bounce
mail.catchall.alias  catchall
mail.catchall.domain hotmail.com
```
